

Group Name: Group 2

Agenda:

1. Complete exercise 4 of Assignment 1
2. Use pseudo code to do the design plan
3. Create function for exercise 4 using exercise 1 (part 2) code
4. Write code to read string from serial input and send to serial output
5. Draft answers to discussion points

Meeting on 26/03/21, 14:00

Location: Discord

Duration: 1 hr

Attendees:

Wei Ming	Chester Burns	Greta Bennett	Darragh McMullen
----------	---------------	---------------	------------------

Apologies:

Minutes:

1. Went over Assignment 1 specifications once again.
2. Chester commented and cleaned up exercise 3 code.
3. Darragh solved issue in exercise 2.
4. Wei explained which lines to extract from exercise 1 code for exercise 4.
5. Greta committed meeting minutes to-date to GitHub.
6. Divided exercise 4 into tasks for each group member.

Action Items:

Action	Person to do	Deadline
Adjust exercise 3 code that reads from serial input/sends to serial output for exercise 4	Chester	28/03
Create a design plan for how string displayed on 7-seg	Greta	28/03
Adjust exercise 1 code that converts letters in string to uppercase for exercise 4	Wei	28/03
Adjust exercise 2 code that inputs and outputs a character string for exercise 4	Darragh	28/03
Integration testing on Dragon12 board	Chester	29/03

Notes:

- Next meeting Sunday or Monday for final review of assignment before Tuesday lab.
- Remember to review discussion points before presentation.
