Group Name: Group 2

Agenda:
1. Complete exercise 4 of Assignment 1
2. Integrate exercises in Assignment 1

Meeting on 23/03/21, 14:00
Location: MTRX Lab / Zoom
Duration: 3 hrs

Attendees:

Wei Ming	Chester Burns	Greta Bennett	Darragh McMullen

Apologies:

Minutes:
1. Darragh pushed exercise 2 to Github.
2. Wei pushed exercise 1 to Github.
3. Chester and Greta tested exercises on board.
4. Added delays to exercise 1. String of numbers displayed at same time on LEDs. AMAZING. Exercise 2 is complete up to task 2.
5. Exercise 1 is fully complete and the correct strings appear in Memory.
6. Asked the tutor about the design plan.
7. Started exercise 4 integration and assigned tasks before the presentation lab.

Action Items:

Action	Person to do	Deadline
Darragh to do the design plan (using pseudo code, descriptions etc.)	Darragh	30/03 presentation
Wei to create function in exercise 4, part 2 using code from exercise 1.	Wei	30/03 presentation
Chester and Greta to write code to read string from serial input and send converted string to serial output.	Chester and Greta	30/03 presentation
Draft answers to discussion points for assessment.	All members	30/03 presentation day

Notes:
● Check CodeWarrior is running on the board, not in simulation!!!
